2. Option II: Core Package Rates

This option is our most flexible option that allows agencies to pick and choose the content to best meet their online legal research needs. Due to the variety of content as well as the difference in the volume of content, pricing differs slightly between states. We have provided pricing based on a three tier system for the Participating States for Options 2 and 3, where applicable, and for Option 6(a).

- **Tier 1 States** in general have a more extensive collection of laws, regulations and opinions published than Tier 2 and Tier 3 states. They also typically have more state specific analytical material and a larger collection of available briefs.
- **Tier 2 States** are states that have a large volume of published laws, regulations and opinions. These states will have analytical content and briefs, but not to the same extent of Tier 1 states.
- **Tier 3 States** in general are states with a smaller volume of laws, regulations and opinions published than the Tier 1 or Tier 2 states. While they may have analytical content and briefs available, the overall volume of content is less than the other tiered states.

The following table demonstrates the tiers that each of the 15 Participating States fall into(as well as what tiers other possible participating states may fall under):

Tier 1	Tier 2	Tier 3
AZ, LA, MN, MO, NJ	KS, ME, SC, UT	HI, MT, NE, NV, ND, SD
Other Tier 1 States AL, CA, DC, FL, IL, IN, MA, MI, NY, PA, TX	Other Tier 2 States AK, CO, CT, DE, GA, IA, KY, MS, OH, OK, OR, TN, VT, WA, WI	Other Tier 3 States AR, ID, MD, NC, NH, NM, PR, RI, VA, WV, WY

3. Option III: Public Access Rates

Patron Access

Westlaw Patron Access offers library patrons unlimited use of the Westlaw databases they need most. Westlaw Patron Access was developed expressly for government law libraries and public libraries. West is offering two content packages to choose from: A State Content Package, and a State/Federal/Treatises Content Package.

The State Content Package includes: State Essentials Libraries

The State Essentials Libraries combines access to a state's case law and annotated statutes

Case Law

Westlaw has case law coverage for all state court opinions published in West's National Reporter System. West case synopses and headnotes summarize the critical information: facts, issues, procedural history, holdings, and disposition of a decision that is otherwise scattered throughout an opinion.

Statutes and Court Rules

Westlaw has annotated statutes for the 50 states, as well as historical information about a particular statute. Westlaw also provides access to a state's court rules and orders.

Legislative Service

- State Legislative Service
- Historical Legislative Service

State/Federal/Treatises Content Package includes the following:

All Primary Law Library

The All Primary Library provides access to federal and state case law, statutes, administrative materials, forms, and West's legal directory in a single, integrated research tool. It also includes Law Reviews and Journals.

All Analytical Library

The All Analytical Library combines expert legal analysis with forms, jury instructions, and more. This collection of titles helps researchers quickly review specific points in familiar areas of law and cover unfamiliar ground with confidence and speed. This library includes several analytical sources, including American Law Reports, the All AMJUR Library, Restatement of the Law, Federal Practice and Procedure, Forms and Jury Instructions, among other features.

Westlaw eforms

The comprehensive collection of online eforms on Westlaw generally includes hundreds of easily searchable official forms for state, local, and federal courts, as well as government agencies. Each form is a PDF document with advanced features that let users highlight and underline text, make comments on "sticky notes", add stamps, incorporate digital signatures, attach documents, and more. Unlike PDF forms available through other providers, users can save Westlaw eforms on their computers and complete them later. Users can also e-mail the form to colleagues and clients for improved collaboration, and, once finalized, to the court for filing. These interactive capabilities are embedded right in the form, so there's no need to purchase additional software.

Westlaw's eforms are generally available by state and local courts in a wide range of practice areas and jurisdictions.

Pricing. West is now submitting tiered pricing where applicable. For Patron Access, tiered pricing is available for the *State Content Package*. The *State/Federal/Treatises Package* provides the same content for all the states, so pricing is the same for all tiers.

Discounted pricing is also now available for agencies that commit to a longer term.

3. Option III: Public Access Rates

Correctional Facilities

Westlaw Correctional Facilities is a web-based, custom-designed interface developed specifically for use by inmates at correctional facilities. It provides access to select databases on Westlaw, the premier, online legal research service.

BUILT-IN SECURITY FEATURES

In Westlaw Correctional Facilities, West developed a product that meets the security needs of correctional facilities. West employs a two-layer security system. The first layer is a redundant blocking technology that prevents inmates from accessing material that is not included in the Westlaw subscription plan selected by the facility. This layer also prevents inmates from downloading, e-mailing, or printing via the Westlaw interface. (Internet browser printing is permitted.)

The second layer of security “locks down” the user interface. The traditional Westlaw interface has a myriad of options and features. All but the core research features have been stripped out of the Westlaw Correctional Facilities interface, which, in effect, limits the ability of inmates to enter commands or “hack” into other areas of Westlaw. Inmates will not be able to access Westlaw databases outside of the correctional facility’s subscription plan.

Use of Westlaw Correctional Facilities is provided at authorized terminals, which provides the correctional facility with an extra measure of data security and control. (Correctional facilities are responsible for restricting access to other Internet sites. West Customer Technical Support can recommend solutions to the correctional facility.)

The following content is provided in response to this requirement.

All Primary Law with KeyCite

- State and federal cases, statutes, and court rules specific to the correctional facility’s jurisdiction
- Other jurisdiction’s primary law
- KeyCite

All Primary and Analytical Law with KeyCite

- State and federal cases, statutes, and court rules specific to the correctional facility’s jurisdiction
- Other jurisdiction’s primary law
- American Law Reports (ALR)
- American Jurisprudence 2d (AMJUR)
- West’s Practice Series for the correctional facility’s jurisdiction (if available)
- KeyCite

West is now submitting tiered pricing where applicable. For Westlaw Correctional, tiered pricing is available for the *All Primary with Analytical* product. The content for the All Primary product is the same for all states; therefore the pricing is the same for all tiers. Pricing for *All Primary* remains the same for all tiers.

Discounted pricing is also now available for agencies that commit to a longer term.

6. Other Pricing Solutions

Option 6 has three options – 6(a) State Essentials Libraries, 6(b) Special Offers, and 6(c), WestlawPro

Option 6(b). Special Packages

Legal research needs vary widely from agency to agency depending on the nature of the work performed and the unique legal research needs of the end users. When an agency's needs cannot be met by the pricing options outlined in Options I-III, West can create special packages that are tailored to an agency's unique legal research needs. This will allow an agency to enjoy the best value, in terms of both price and content. Please work with the appropriate West contract for more information (see website for contact information).

Option 6(c): Westlaw PRO Library Collections

Westlaw PRO Library Collections are slices of Westlaw content that allow Purchasing Agencies the ability to purchase specific collections of Westlaw content to meet their unique online legal research needs. West will offer Purchasing Agencies a 15% discount off of then-current retail pricing from our entire catalog of Westlaw PRO library collections for a one year commitment. Westlaw PRO is a great alternative option for agencies that have unique research needs and must access content that is not available under the previously listed options. Any agency can search for our commercial and current Westlaw PRO libraries by visiting our online store at west.thomson.com. Alternatively, please contact your local West government representative to obtain more information. The 15 % discount off of any Westlaw PRO product is available to any

authorized government agency committing to a one year commitment. Additional discounts apply for longer term commitments:
