Ref: WSCA Master Price Agreement – MA249

Dear Debbie:

This letter is to inform you that Iridium, our supplier of satellite telephones on the above referenced Master Agreement, recently announced their 9505A model has reached its end of life. Once our current stock level is depleted, this model will no longer be available for sale. Accessories for the 9505A are still available for purchase and both Iridium and World Communication Center, Inc. (WCC) will continue to provide technical support for this 9505A model.

The new 9555 satellite phone model replaces the 9505A and is Iridium's latest offering. In November 2008, we added the 9555 and its accessories to our WSCA Equipment Price List to ensure the State of Utah continues to have the ability to purchase reliable mobile satellite communications. I have attached a brochure of the 9555 for your review and reference.

If you have any questions, please don't hesitate to contact me.

Warm regards,

A handwritten signature in blue ink, reading 'Gina M. Martinez', is written in a cursive style.
