GUIDE TO STATE PROCUREMENT

A 50-State Primer on Purchasing Laws, Processes, and Procedures

Special Pricing for NASPO Members!

State procurement law is both complex and isolated. With each state having its own statutes, regulations, and policies, there is both similarity and important differences in the frameworks of procurement law and policies that the states have developed over the years. This complexity can make it difficult and time-consuming for suppliers who provide products to multiple states, and therefore accurate knowledge of each state’s current law and practice is essential. The **Guide to State Procurement** is a single-volume reference to the law in every state. Providing quick, on-point information, each summary chapter focuses on purchasing at the state level. Chapters in this state-by-state compendium are written by individuals knowledgeable in that state’s laws and processes, and include:

- A listing of purchasing laws and regulations
- Descriptions of purchasing methods
- Explanation of:
 - Bid protest procedures
 - Contract claims processes, and
 - Administrative and judicial review

For all of those involved in state procurement—government officials, contract administrators, attorneys, and contractors—the information in this **Guide** will be an invaluable resource.
